

March 2021 (George) Radio Spot

Hello. My name is George Roberts. I am a senior at Pendleton High School. When I moved here from Houston, Texas, as a sophomore, I was worried about what my high school experience would be like. I was not only able to build good relationships with the teachers here, but through Mr. Cooper, Mr. Dinkel, and Ms. Bixler, I was able to find my love for biology and engineering. My favorite event here is Mud Wars. I love it because it shows our school pride and our love for each other and for competition. After high school, I plan on going to college to study biology and engineering. This is George Roberts. Go Bucks!
