Reopening Plan 9.0

The following reopening plan from Comprehensive Distance Learning to the Hybrid model and the associated timeframes are **tentative** and **could change** due to updates in the governor's executive orders, guidance from OHA, ODE, and local circumstances. It should be noted this plan and could be impacted by unforeseen circumstances.

Parents who are uncomfortable sending their children back to school during any transition period will be offered an alternative distance learning option. Moving from Comprehensive Distance Learning to Hybrid model requires schools to abide by the most current Ready Schools, Safe Learners guidance.

This outline for reopening is aligned to the most recent Ready Schools, Safe Learners. This includes maintaining small cohorts of students, social distancing, wearing face coverings and frequent washing of hands while at school.

Definitions:

- **Comprehensive Distance Learning or CDL** = allows for remote learning with few exceptions such as limited in-person instruction (LIPI).
- **Hybrid** = is a combination of distance learning with in-person instruction for most students whose families choose to send their families back to school.
- **In-person Instruction** = occurs when schools are re-opened and students attend all day, every day.

Time Frames: *These dates and activities are subject to change depending on the existing circumstances. Activities can be pushed up or pushed back. When moving to the next stage, the intent is that families and students will be given a 10 to 14-day advanced notice.**

January 4-17, 2021 – Comprehensive Distance Learning

- Assess Current Status & Logistics for transition
- Review updated guidance from Governor, ODE & OHA
- Update Operational Blueprints
- Review Elementary Hybrid Plan and Stage Implementation
- Review Secondary Hybrid Plan and Stage Implementation
