

May 9, 2021 – Vaccine Benefit

Hello, this is Chris Fritsch, Superintendent of the Pendleton School District.

In partnership with Umatilla County Public Health, I urge county residents to seriously consider the positive individual and community benefits of receiving a COVID vaccination. People who are vaccinated greatly reduce or eliminate their chances of contracting the virus while helping protect those around them. Vaccinations are critical to “community immunity”; please do your part!

We are the Pendleton School District, and together, we are committed to every student, every day!
