# Lead in Water Test Results Summary: Pendleton Tech & Trades Center

### Notes:

- The lead in water Action Level is 15 parts per billion (ppb).

  Any fixture testing at or above the action level of 15 ppb is immediately removed from service and cannot be returned to service until it has been remediated and passed follow-up testing.
- A "ND" or "non-detect" test result indicates the sample measured below the minimum detection limit of [#] ppb.

### Legend:

- Test results equal to or greater than the Action Level of 15 ppb are highlighted in red and precede a "High" value in the "Initial Level" or "Final Level" column.
- Test results near the Action Level of 15 ppb (11.99 to 14.99 ppb) are highlighted in yellow and precede a "Med" (Medium) value in the "Initial Level" or "Final Level" column.

		Initial	Initial Test	Initial	Final	Final Test	Final
Fixture Location Description	Fixture ID #	Test Date	Result (ppb)	Level	Retest Date		Level
