

Acellus Gold

Acellus Gold uses video-based lessons for a flexible, yet rigorous curriculum. Students will use a computer to complete all assignments. This program is ideal for families on the go, or for students that learn best with technology.

- The program is good for auditory learners
- Lessons follow a predictable pattern
- Students earn "gold" to unlock games
- Access to and frequent check-ins with highly qualified teacher
- The program does not have a paper-pencil option.
